Who We Are

PMI International are a team of Project Management and QA/QC Professionals based in China, Hong Kong, Macau and Taiwan. We offer Expatriate Managers with highly qualified local support teams to oversee your manufacturing, fabrication, procurement and supply chain management.

As part of our service, we provide sourcing and manufacturing of various type of Stonework from Tiles, Sculptures, Counter Tops, Façade, Balustrades, Fireplaces, Columns and any custom stone types. This includes multi range of stone quality from general used to semi-precious stone. Our dedicated and experienced team in Stonework including Stone Experts, Designers, Architects and Engineers is our key of success in delivering high quality products.

At PMI International, we are flexible. We bring management and design solutions designed to meet your specific needs. We will match the right training and the best Project Management Consultants to the task at hand.

PMI International

Overview

PMI International is an established China strategic procurement business and part of our business is design, manufacturing and supply of Stonework.

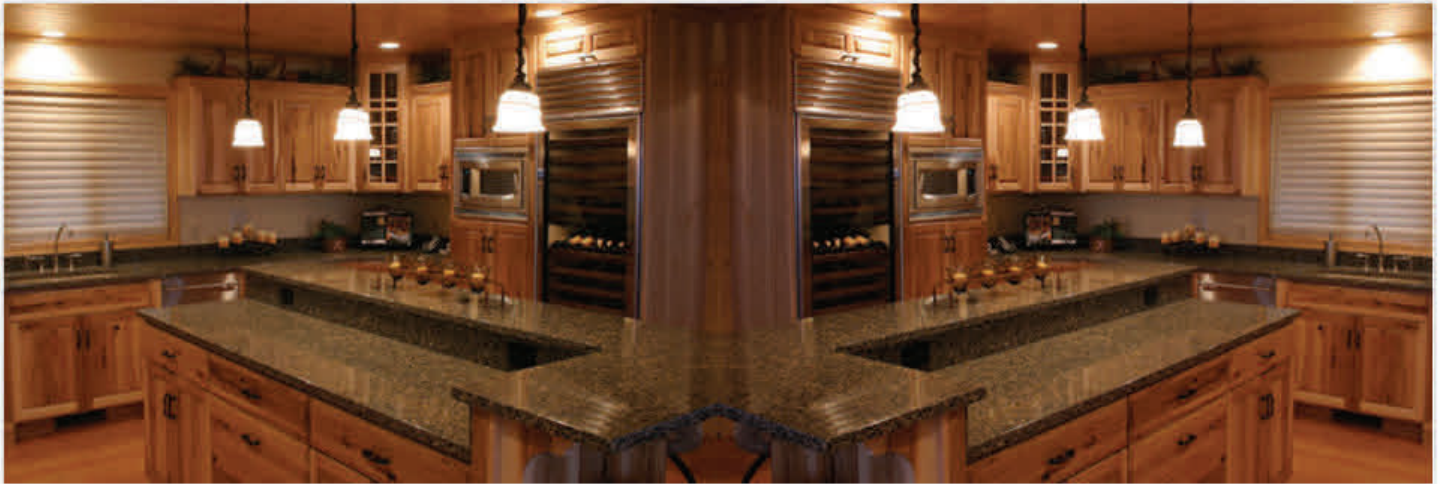

These are divided into the following key areas:

- ◆ Manufacturing and Supply of Tiles, Sculptures, Counter Tops and Façade in bulk order;
- ◆ Design, Manufacturing and Supply of Custom Stonework from our Clients specific needs;
- ◆ Supply of Stone Slabs (from general used to semi-precious stone);
- ◆ Design, Shop Drawing and Consultation;

Our Added-Value

- ◆ Our business is based on sourcing and services by providing competitive and low risk procurement by adding value and providing certainty to our Client.
- ◆ In turn, this enables our Client to successfully win and deliver projects on-time and up to the applicable Quality standards.
- ◆ Our experienced and dedicated team member from the field is the key of success.
- ◆ Our partnership with the local manufacturers and International block suppliers from various quarries is another advantage.

Our Experience & Specialty

- ◆ Project Management and Technical Team by experienced Expats and Locals working in various remarkable International Projects such as High End Hotel & Resorts, Amusement & Theme Parks, and high end building projects.
- ◆ Our Technical Teams consist of Architects, Designers, Consultants and Engineers built up from the most highly experienced and trained personnel.
- ◆ We custom our service to suit our customer needs by providing an outstanding consultation.

Our Ability

- ◆ Various manufacturing capacity;
- ◆ Competitive market rates;
- ◆ Knowledge in China's manufacturing market and International demand;
- ◆ Large variation in capability, complexity & process;

Our Products and Services:

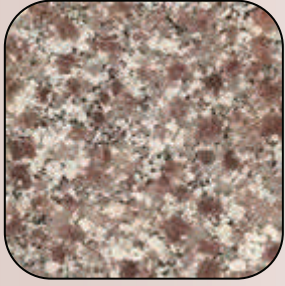

Products and types;

- Granite

Manufacturing

At PMI International, we are well-known for delivering high-end final products to the hand of our Customer in full and on time. Our team of experienced experts from our Management Team to the factory floor QC personnel are dedicated to overseeing the entire manufacturing and delivery process. Our areas of expertise and key to success are:

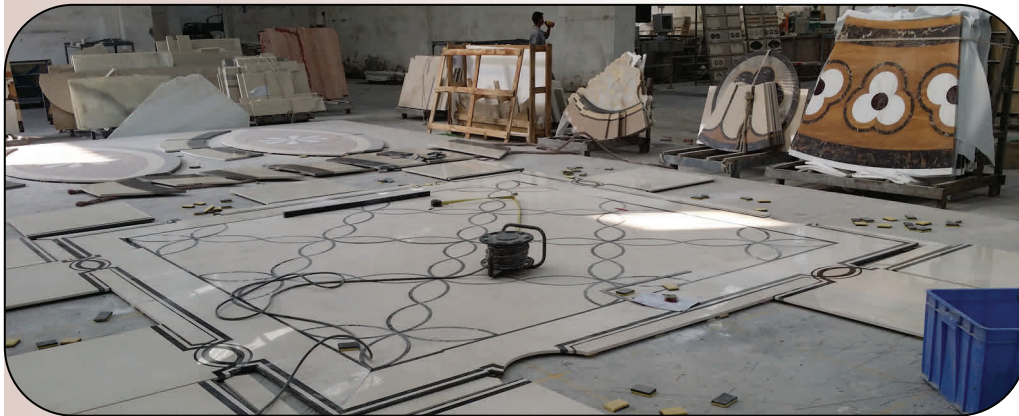

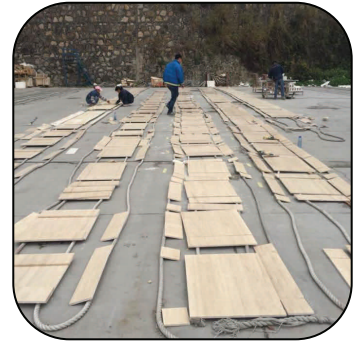

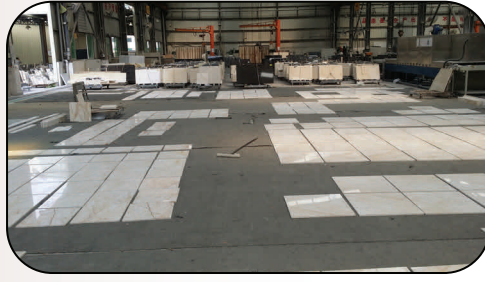

- ◆ Our partnerships and local knowledge of Chinese stone manufacturers, oversea Stone Quarries and Stone Suppliers.
- ◆ Our Stone experts are specifically trained to meet our customers every need.
- ◆ Our Quality experts are dedicated in overseeing the product quality as a whole.
- ◆ Our Technical experts are specifically nominated in overseeing the design and manufacturing process.

Multi – CNC Processes

Mosaic, Dry Lay & Final Product Verification

To ensure the best quality and Customer's satisfaction, our teams are dedicated to carry out final product inspections and trial assemblies of Mosaic assemblies by Dry-Lay process.

Supply Chain Management

From the Quarries to the finished product, at PMI we follow the entire process to ensure you get the right product from the right source on time and in full.

Step 1: source the correct material from applicable quarry (global).

Step 2: deliver stone blocks to PRC processing factory.

Step 3: slice and dice stone to required sizes and shapes.

Step 4: dry lay matching, finish final product.

Step 5: pack and ship finished product to your door.

Inspection, Packing & Delivery

At PMI, we ensure your products are delivered on time and in full. We apply a thorough QC process with dimensional inspections, sign-off of packing, crating design verification and safe handling during delivery.
